

MOUNTAIN SENTINEL.

France--The United States and the Sandwich Islands.

A correspondent of the Albany Evening Journal, writing from Honolulu, says: "Owing to difficulties between the Hawaiian and French governments, growing out of the duties on brandy imported here, and some other causes, it is not unlikely that the American flag will be hoisted here in a few months. There is no doubt here that Mr. Allen, United States Consul here, was sent home by this government, to ask, in the name of Kamehameha III, protection against the French; and in case the United States government would not, or could not, otherwise interfere, to offer to cede the sovereignty of these islands to the United States and have them annexed to the Union. All classes here are keenly alive to this subject, the Americans hoping for it, as the means of greatly increasing the trade of the islands; the English in a rage about it, foreseeing in such a measure a death blow to their commercial interests in the North Pacific. The French men-of-war will be here in three or four months, when, unless there is an American force here to prevent it (which, by the way, we confidently expect), they will doubtless enforce their demands against the government, by the most conclusive of all arguments, cannon balls."

Coincidences.

The following singular coincidences will be found interesting:--Alexander the Great was born on the 6th of April. On that day he won two of his most important victories, and on that day he died. On that day his father, Philip, conquered Potidæa, and on that day Parmenio, Philip's general, overcame the Illyrians. Pompey the Great was born and died on the 30th of September, and on the same day triumphed on his return from Asia. Augustus was adopted by Julius Caesar on the 19th of August, and on the 19th of August he died. The wife of King Henry VII. was born and died on the 11th of February. Sir Kenelm Digby was born and died on the 11th of June. He conquered at Scanderon on the same day. Rastelle was born and died on Good Friday. Shakespeare's birthday was also the day of his death--April 23rd. The 24th of February was the day of the death of Charles V. of Spain, as the third of his birth, the day of his victory over Francis, King of France, and the day on which he received the Imperial crown at Bononia. Charles II. of England was born and died on the 29th of May. The 31st of September was marked in the history of Cromwell as the day of the victory at Dunbar, also that of that at Worcester, and as the day of his death. Days of the week have been signified in a similar manner. Tuesday was a day of note to Becket, the English saint. On Tuesday the lords passed judgement upon him at Northampton, on Tuesday he went into exile, on Tuesday he had a vision in which his doom was foretold to him, on Tuesday he returned from exile, on Tuesday he died, and on Tuesday was canonized. Wednesday was the lucky day of the celebrated Pope Sixtus V. It was the day on which he took orders, the day on which he was made General of his order, the day on which he was created Cardinal, the day on which he was elected Pope and the day on which he was inaugurated. Henry VII. called Saturday his fortunate day, as that on which he gained the battle of Bosworth, and that on which he entered London. It is remarkable that four of the Tudors in succession died on Tuesday, beginning with Henry VII., the second, and ending with Elizabeth, the last of the line.

The Secretary of the Treasury.

The New York Commercial thus describes the personal appearance of Mr. Guthrie: "The Hon. James Guthrie is a man to attract observation anywhere. Of good stature and stalwart frame, he is plain, almost rustic in his attire, and sits erect and firmly. The countenance is strongly marked, and would indicate, even to the most superficial observer, high personal integrity, great energy of purpose and power of will, and generally almost rigidly of character. The first impression of harshness, however, rapidly subsides, as one continues to study that noble, frank, clear countenance. The stronger lines become more manifestly but the traces of thoughtfulness, and a habit of reflection. The inner man shines forth and you feel that with strength of character is blended the softness of a benevolent, that ever and anon beams from the eye and plays around the mouth. The impression instantly made by this happy blending of elements of character is most pleasing. Before you are aware how deeply your feelings are interested in the gentleman, you detect yourself divining that Mr. Guthrie is just the man you would like to have for a friend; that he must be an excellent neighbor and adviser; that to a young man especially, his counsel and oversight would be invaluable; and your faith in the man grows as you study him until you almost wish you had occasion for reposing confidence in him.

"Nor is this feeling at all abated, but rather increased, when he speaks, for the voice is less rigid than the features. A slight suspicion of dogmatism--which however, has been nearly obliterated as your study proceeded--is totally banished now that he speaks. He is no orator. He is eloquent only because he is earnest. He seems not to know, or care to know, the arts of the rhetorician. His mode of utterance is not good, save somewhat of the desk or pulpit. But he speaks directly to his subject, with point and force."

An Agreeable Operation

An observing correspondent of the Springfield Republican, who has been writing from Vienna, gives the following amusing description of the mode of leave-taking among the people out there:

On parting with my friends in Vienna, I was initiated into the mysteries of an Austrian leave-taking. It consists of an endless series of definite prolongation, a labyrinthine maze of hearty huggings, warm embraces, affectionate squeezings, and cordial kissings. As long as the "lip service" is confined to "lovely woman," it is by no means disagreeable, but when a burly individual, whose face fairly bristles with hair, whose cheeks, whose lips, whose chin, present one unbroken phalanx of softly pointed fingers, encircles you in his arms, and imprints on each side a salute that nearly takes the skin off, and makes your face tingle with pain for an hour after, the sentiment, the poetry, the effervescence, the fragrance of the thing vanishes entirely, and it is converted into the most nauseating penance. But to refuse your Austrian friend this farewell salutation, would be to offend him mortally. It was deemed to be to offend him mortally. I was doomed to undergo this excruciating ordeal of friendship several times, therefore I speak feelingly on the subject. I have often been amused at the mutual efforts of two natives to penetrate the thick "chapparral" of each other's faces, in order to find a clear space sufficiently large to implant a token of their brotherly affection. What is better calculated to provoke a smile than to see this, with us, feminine mode of greeting, exchanged in the street between two hairy patriarchs of sixty or seventy winters.

The farmers of Iowa say it is almost impossible to sleep at night on account of the racket made by the rapid growth of the corn.

AYER'S CHERRY PECTORAL

For the Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

"And by the river, upon the bank thereof shall grow all trees for meat, whose leaf shall not fade, and the fruit thereof shall be for meat and the leaf thereof for medicine."

There was hope for the sick recorded long ago, and every year adds new proof to the assurance that these promises shall not fail.

As medical Science discovers and designates the remedies nature has given, one by one, the diseases that afflict our race yield to the control of art. Of all the maladies we suffer from, none has carried more victims to an untimely grave than Consumption of the Lungs. Subjoined we give some evidence that this too may be cured, and that Pulmonary complaints, in all their forms, may be removed by CHERRY PECTORAL.

Space will not permit us to publish here any proportion of the cures it has effected, but the Agent below named, will furnish our Circular, free, wherein are full particulars and indisputable proof of these facts.

Sufferers read judge for yourselves.

For Influenza and Whooping Cough.
NASHVILLE, TENN., June 20th 1851.
Sir: I have repeatedly used your CHERRY PECTORAL for Whooping Cough and Influenza, and have no hesitation in pronouncing it a complete remedy. Four of my children have been afflicted with these diseases, and the free use of your agent has always afforded almost instant relief.

JAMES GLOVER.
We attest the truth of the above statement.

FOR A CONSUMPTIVE COUGH.
PITTSBURG, PA., Feb. 25, 1851.
Dear Sir:--For three years I have been afflicted with a Cough, so distressing that I frequently despaired of recovery; much of the time I was obliged to sit up all night in my chair, as my cough would suffocate me when I laid down. Having used many remedies without much relief, I at last tried the Cherry Pectoral, which, under Providence, has cured me altogether.

I am with gratitude yours,
JAMES MCANDLESS.

This is one of the numerous cures of ASTHMA which have been accredited to Cherry Pectoral.

ALBANY, N. Y., April 17, 1848.
Dr. AYER, Lowell. DEAR SIR: I have for years been afflicted with Asthma in the worst form, so that I have been obliged to sleep in my chair for a larger part of the time, being unable to lie on my bed. I had tried a great many medicines, to no purpose, until my physician prescribed, as an experiment, your CHERRY PECTORAL.

At first it seemed to make me worse; but in less than a week I began to experience the most gratifying relief from its use; and now, in four weeks, the disease is entirely removed. I can sleep on my bed with comfort, and enjoy a state of health which I had never expected to enjoy.

GEORGE S. FAIRBANK.
Commission and Forwarding Merchant.

From the President of Amherst College.
EDWARD HITCHCOCK, M. D., L. D., &c.
J. C. AYER, Sir: I have used your Cherry Pectoral in my own case of deep-seated bronchitis, and am satisfied, from its chemical constitution, that it is an admirable compound for the relief of laryngeal and bronchial difficulties. In my opinion, as to its superior character, can be of an antidote, you are at liberty to use it as you think proper.

EDWARD HITCHCOCK.
Amherst, Sept. 12, 1849.

\$5000 CHALLENGE.

WHATEVER concerns the health and happiness of a people is at all times of most valuable importance. I take it for granted that every person will do all in their power, to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that *Worms*, according to the opinions of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable; if you have an appetite continually changing from one kind of food to another, Bad Breath, Pain in the Stomach, Picking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular--remember that all these denote *Worms*, and you should at once apply the remedy:--

Hobensack's Worm Syrup.
An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the most tender Infant with decided beneficial effect, where *Bowel Complaints* and *Diarrhoea* have made them weak and debilitated. The Tonic properties of my Worm Syrup are such that it stands without an equal in the catalogue of medicines in giving tone and strength to the Stomach, which makes it an infallible remedy for those afflicted with *Dyspepsia*, the astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

THE TAPE WORM!
This is the most difficult Worm to destroy of all that infest the human system, it grows to an almost indefinite length, becoming so coiled and fastened in the Intestines and Stomach effecting the health so sadly as to cause St. Vitus Dance, Fits, &c., that those afflicted seldom if ever succeed in curing it. In order to destroy this Worm, a very energetic treatment must be pursued, it would therefore be proper to take 6 or 8 of my Worm Pills so as to remove all obstructions, the Worm Syrup may act direct upon the Worm, which must be taken in doses of 2 Tablespoonfuls 3 times a day these directions followed have never been known to fail in curing the most obstinate case of *Tape Worm*.

Hobensack's Liver Pills.
No part of the system is more liable to disease than the Liver, it serving as a filter to purify the blood, or giving the proper secretion to the bile, so that any wrong action of the Liver effects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c. We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of *Roots & Plants* furnished by nature to heal the sick:-- 1st, An *Aztec*, which augments the secretion from the pulmonary mucous membrane, or promotes the discharge of secretions in the Liver; 2nd, An *Alcaline*, which changes in an inexplicable and insensible manner the certain morbid action of the system. 3rd, A *Tonic*, which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th, A *Cathartic*, which acts in perfect harmony with the other ingredients, and operating on the Bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the Blood, which destroys disease and restores health.

TO FEMALES.
To many complaints to which you are subject--in obstructions either total or partial, they have been found of estimable benefit, restoring their functional arrangements to a healthy action--purifying the blood and other fluids so effectively as to put to flight all complaints which may arise from female irregularities, as headache, giddiness, dimness of sight, pain in the side back, &c.

None genuine unless signed J. N. Hobensack, all others being base imitations.

STORR'S CHEMICAL HAIR INVIGORATOR.
This delightful and popular article in the best preparation for the hair which long experience and scientific research has produced, either as an article for the toilet, or its beneficial effects in all the diseases to which the human hair is liable. It will impart to the roughest and coarsest hair the most beautiful appearance, entirely by cleansing it from all impurities.

But while we assert that it is the best article for the toilet of those who wish to retain the hair in all its youthful

LUXURIANCE AND BEAUTY.
it must not be forgotten that in all diseases of the hair or scalp, such as the falling of the hair dandruff, pimples, or sores on the scalp, &c., it is, perhaps the article which has given decided satisfaction in every instance where it has been used.

Its operation in case of baldness is peculiarly active, so that, in numerous, where other remedies have been tried in vain, STORR'S CHEMICAL INVIGORATOR has superseded the ornaments of art, by reinstating, in full plenitude, the permanent gifts and graces of nature. It is possessed of a character wholly differing from the Oils, Grease, Restoratives, &c., which are now so numerous foisted on the public, under the pretence of being newly discovered for baldness, gray hair, &c.

Storr's Invigorator has now been tested for years, and its efficacy has been proved by thousands. Every year its reputation and sales have increased, until more of it is consumed annually than of any other preparation for the hair ever offered to the American public. It is compounded on strictly scientific principles, and the proprietor will stake his reputation on its efficacy.

Its extraordinary cheapness places it within the reach of the humblest family, and its conceded value insures it a place on the most luxurious toilet.

For sale by the proprietors--price 25 cents.
